PBIS Systems: Creating a Positive Climate and Safe, Supportive Learning Environment

Featuring Seaside Educational Consultants Presenter: Maureen Gilman

Thursday, March 26, 2020
at the MSAA Office, Franklin, MA

Sign-In/Registration: 8:00am–8:30am
Workshop: 8:30am–3:00pm

PD Hours: 6
Content Area: Safe and Supportive Learning Environments

Fees: Member $215/Non-Member $285

Do you want to build positive student to student and student to teacher relationships and increase productive student engagement throughout the day? Does your classroom or building need a stronger sense of identity and community? Join us. PBIS Systems will explore the core components of an authentic, research-based PBIS program. Classroom teachers and leadership teams will begin to build a system for reinforcing positive, expected behavior at school, and transforming the culture of the school or classroom from reactive to proactive.

Participants will:
- Learn about the core components of PBIS.
- Explore how PBIS programs work in conjunction with multi-tiered systems of support (MTSS).
- Investigate how to determine classroom, or school based, core values.
- Explore how to build a matrix of behaviors.
- Examine multiple strategies for explicitly teaching expected behavior and reinforcing positive behavior.
- Determine best practices for holding students accountable for demonstrating behaviors.
- Explore strategies for progress monitoring, data collection and accountability.

Maureen Gilman is an adjunct professor with classroom experience teaching in Grades 1–5. She is a trained DESE mentor and works for Merrimack College and Endicott College as a cooperating practitioner for student teachers. Presently, she teaches a course for Endicott College titled "Integrating Technology in the Classroom," which focuses on introducing research-based theories, practices, and curricula related to technology. She understands the importance of incorporating 21st-Century skills that are needed for the future success of our students.
